

CRAMER

& ASSOCIATES, INC.

AROUND THE CLOCK

SPRING 2015

IA 316 over DSM River

The crews of Tim, Scott C., Jake B., and Kelly began the month of April working **around the clock** to get a good start on the Runnells redeck. One crew would be removing the deck while the other followed behind decking. Anthony moved in later to start slabbing off the deck over the river, which also ended the around the clock schedule.

Runnells is not the only job that started out with odd hrs. Ben's crew got the opportunity to work nights under I-74 over the Mississippi for the first couple of weeks on the job.

Jack is finishing an overlay job in Cerro Gordo Co. IA. Brad is overlaying IA 163 over Four Mile Creek in Des Moines.

Cedar Rapids is proud to have Doug, Larry, and Dave building two of their bridges. Larry is close to setting beams while Doug and Dave have just got a portion of their deck poured.

Chad and Tanner began the season working near Brighton, IA on IA 1 over the Skunk River. Chad is beginning to deck and Tanner recently left to help out in Runnells.

The Cramer workforce is in full swing around the state of Iowa and into South Dakota and Nebraska. Thank you for your continued efforts and hard work.

Edgewood Rd. over IA 100 in Cedar Rapids

Chase and Jeff are in Council Bluffs working on the I-29/US 275 interchange Tri-Venture with Hawkins and United.

Nels and Mike are in Sioux City dismantling half of the I-29 bridge over the Floyd River.

Scott D. is brushing up on his painting skills in Dell Rapids, SD.

Jake C. is replacing joints in Lincoln, NE on US 77 over the BNSF Railroad.

US 30 over Missouri River

Ryan is working over the Missouri River overlaying US 30 near Blair, NE. His new addition Eli, born February 12th, is probably at home patiently awaiting the start of Iowa State's 2015 football season. Congratulations to the Graham Family!
