

WORK UPDATE: Nels, Doug and Mike V have poured their last pier extension of this stage in Ottumwa and are now setting steel beams.

Chuck and Bob joined Ryan, Josh, Ben and Kelly in working their crews long hours to make sure we hit a July 3rd intermediate completion date. Congratulations on completing it on time in spite of the state of Nebraska adding more work and delaying our switches. We would have had a \$16,000/day penalty if we had run over.

Darren is finishing up in Sioux City where there was quite a ruckus a few weeks ago when some local toughs picked a fight with Darren and Nate. You'll have to come to next year's convention to hear the details!

Chad poured his last deck pour in Rulo, Tim is overlaying in Johnson County, Scott D has a joint job in Fremont County, IA and Dave just finished one in Jasper County. Brad has an overlay in Cherokee, Jake has one in Harrison Co., Jack has an overlay and Larry is working on the 5-in-1, both in Cedar Rapids. Scott C is widening I-235 over Walnut Creek and 8th Street in WDM and Jeff is putting the deck on the river bridge in Fremont, NE.

US 34 over DSM River
Ottumwa, IA

NEW BABIES! I'm sure I don't have all of the new arrivals, but here are a couple. Be sure and email me your baby's picture and I'll get it in upcoming newsletters.
